SMS	Event	0,35	0,35	0,35	0,35

Notes:

- All rates are in USD. VAT or any other taxes are not included.
- Only Standard IP and SMS service only are available.
- The allowance for the first/last month will be prorated.
- The SIM is automatically deactivated when contract is terminated. Re-activation of the SIM is possible upon written request of the subscriber.
- Activation fees will be applied on upgrading to any Rate Plans.
- Once the rate plan allowances has been fully used, any additional usage will be charged at the out of allowance run-on charge.
- Remaining unused allowance, whether it is for a complete month or is pro-rated, will be not transferred for use in the next month.
- The communication sessions in the «Data transmission over the Internet» (IP-traffic) are formed on the basis of the connections to the network. Such a formation is necessary for the implementation of the IP-traffic monitoring and cost calculation. Parameters of the formation of the communication sessions are as follows:
 - the achievement of traffic volume - 2 MB
 - duration of continuous connection - 12 hours
 - disconnect of the communication session.
- The duration of each communication session is rounded up in the following increments - 0,001 Mb.
- Minimum paid traffic for each communication session - 0,000 Mb.
- The total cost of telecommunications services per each SIM-card is settled as the sum of the costs of each communication session, indicated in the CDR detail. The cost calculation of each communication session is made in accordance with the rules of mathematical rounding up to 2-decimal digits. The total cost of services (the invoice amount) for the billing period is defined as the sum of all final costs of communication services on each SIM-card.
- Incoming SMS is free of charge.
- 1 Megabyte = 1024 Kilobytes = 1048576 bytes
- An SMS is up to 160 characters in size as defined by the GSM Association.
