

## Inmarsat SBB Rates effective April 1<sup>st</sup> 2020 (USD)

Service	Unit	SB.COM. 50MB	SB.COM. 100MB	SB.COM. 200MB	SB.COM. 300MB	SB.COM. 500MB	SB.COM. 800MB	SB.COM. 1000MB
Connecting equipment	service	0.00						
Subscription fee	month	305,50	589,00	1144,00	1632,00	2490,00	3776,00	4540,00
<b>Standard IP</b>								
Monthly inclusive MB allowance	Megabyte	50	100	200	300	500	800	1000
Standard IP in of allowance	Megabyte	6,11	5,89	5,72	5,44	4,98	4,72	4,54
Standard IP out of allowance	Megabyte	6,74	6,35	6,16	5,89	5,44	4,98	4,62
<b>Telephony</b>								
Monthly inclusive minutes fixed and cellular destination allowance	minute	20	20	20	20	20	20	20
Voice to fixed out of allowance	minute	0,86						
Voice to cellular out of allowance	minute	1,10						
Voice to voicemail	minute	0,63						
Inmarsat-BGAN/FB/SB/GSPS	minute	0,60						
Inmarsat- Fleet / Swift	minute	1,96						
Inmarsat-Aero	minute	3,85						
Iridium	minute	8,64						
Globalstar	minute	6,28						
Thuraya	minute	3,93						
Other MSS Carriers	minute	5,42						
<b>Fax, ISDN, including ISDN data, ISDN fax and 3.1Khz audio</b>								
Fixed/ Cellular	minute	7,30						
Inmarsat- Fleet / Swift	minute	12,56						
Inmarsat-FBB / SBB / BGAN	minute	11,70						
Other MSS Carriers	minute	12,56						
<b>SMS</b>								
SMS	event	0,39						
<b>Symmetrical Streaming IP</b>								
8Kbps	minute	0,79						
16Kbps	minute	1,57						
24Kbps	minute	2,36						
32Kbps	minute	3,14						
40Kbps*	minute	3,93						
48Kbps*	minute	4,71						
56Kbps*	minute	5,50						
64Kbps*	minute	6,67						
72Kbps*	minute	7,46						
80Kbps*	minute	8,24						
88Kbps*	minute	9,03						
96Kbps*	minute	9,81						
104Kbps*	minute	10,60						
112Kbps*	minute	11,38						
120Kbps*	minute	12,17						

128Kbps*	minute	13,35
SBX-Stream*	minute	29,83
Half-HDR*	minute	20,41
HDR*	minute	47,10
<b>Asymmetrical Streaming IP</b>		
Half-HDR (uplink)- 64 Kbps (downlink)*	minute	15,70
HDR (uplink) - 64 Kbps (downlink)*	minute	39,25
<b>Additional services</b>		
Static IP adress	month	52,00

\* - the service is available only for Class 6, 7.

**Notes:**

- All prices are in U.S. Dollars (USD\$).
- Connecting equipment - activation of SIM-cards on one aircraft. The maximum number of SIM-cards on one aircraft is 4 pieces. The subscription fee and the included traffic volume are provided for all SIM-cards on the aircraft.
- Should there be usage in excess of an allowance then this will be charged at the appropriate out of allowance run-on charge. Subscriptions will continue to be charged after the minimum duration period has expired; this means that a SIM which is on a particular Rate Plan will continue to be charged at that subscription rate until a service order is received to either deactivate the SIM or to move it onto another Package Rate Plan.
- On activation, the subscription and allowance for the first month will be pro-rated. On deactivation of a monthly plan, in the final month there will be pro-ration of subscriptions and allowances; a full month's subscription will be not charged and a full month's allowance will not be provided.
- Should a SIM be suspended, then the subscription charge will continue to be payable during the period of suspension.
- Any portion of such an allowance, whether it is for a complete month or is pro-rated, that remains unused at the end of a month will be lost and therefore not available for use in the following month.
- The communication sessions in the «Data transmission over the Internet» (IP-traffic) are formed on the basis of the connections to the network. Such a formation is necessary for the implementation of the IP-traffic monitoring and cost calculation. Parameters of the formation of the communication sessions are as follows:
  - The achievement of traffic volume - 2 MB;
  - Duration of continuous connection - 12 hours;
  - Disconnect of the communication session.
- Minimum paid traffic for each communication session:
  - «Telephony, «ISDN, Fax, Voice 3.1 kHz» - 30 seconds;
  - «Streaming IP» - 30 seconds;
  - «Standard IP» - 0,0977 Mb.
- The duration of each communication session is rounded up in the following increments :
  - «Telephone», «ISDN, Fax, Voice 3.1 kHz» - 15 seconds;
  - «Streaming IP» - 5 seconds;
  - «StandardIP» - 0,0195 Mb
- The total cost of telecommunications services per each SIM-card is settled as the sum of the costs of each communication session, indicated in the CDR detail. The cost calculation of each communication session is made in accordance with the rules of mathematical rounding up to 2-decimal digits. The total cost of services (the invoice amount) for the billing period is defined as the sum of all final costs of communication services on each SIM-card.
- Incoming call (voice, FAX, ISDN) and mobile terminated SMS is free of charge.
- Voice call forwarding to Voicemail number - free of charge.
- Prices do not include VAT or any other applicable taxes.
- 1 Megabyte = 1024 Kilobytes = 1048576 bytes.
- An SMS is up to 160 characters in size as defined by the GSM Association.

### Value added services

- *FlyCarrier email software*
- *Firewall*
- *Credit limit monitoring*
- *IP forensics*
- *Mosaik User WEB-Portal*

A more detailed description of the services can be found on the website [www.marsat.ru](http://www.marsat.ru) in the section «*For our customers*».
